Product-Information

Stonecleaner PP

Properties:	For removing easily waxes, resins, fats, resined oils, separator remainders, burned food, fuel oil and other strong dirts. For cleaning thoroughly surfaces in steel, concrete, stone, tiles, glass, plastics, granite, basalte, and marble.
Chem. condition:	alkaline liquid cleaner
Dosage:	pure
Directions for use :	apply Heidt & Schwarzfeld Stonecleaner PP pure onto a dry ground by using a nylon brush.The reaction time varies between 2-3 min. and 15 min. according to the degree and type of the soiling. Do not allow the product to dry on the surface. After the reaction rinse off with a high-pressure machine or a pressurized hot water cleaning equipment or by mechanical means. Dilute Stonecleaner S1 in the ratio of 1:20, then neutralize till the surface reaction reaches the neutral field. Rinse off thoroughly with water.
Application:	according to the degree and type of soiling
Note:	The lower the temperatures are the higher the reaction time is. However, do not use the product at a temperature below +5°C. Do not use Stonecleaner PP into direct sunlight. Not suitable for polished grounds particularly marble, aluminium (eloxal- and PU-coatings) alloy steel, zinc, sheet glass, steamy glass panes and autoglass, natural fibres, saponificate lacquers (for ex. oil varnish,shellac, polyvinylacetate). Avoid contact with any non-alkali-resistant grounds and objects. Please follow carefully the instructions and safety recommendations out of the EU-safety regulation form.
Specifications :	Expiration : minimum of 2 years pH-value : 12,5 Contents : alkalis, ethyleneglycolmonobythylether drainage-safe (biodegradable according to DIN)
Container size :	25 L / container UN-Number : 3266 UN-Number : 12670013 Item-Number : 10008
