

Product-Information

Alkafix-4000 Industrial cleaner concentrate

Features:	Alkafix-4000 is suitable for cleaning extreme contamination and encrustations on walls, floors, ceilings, devices, motor vehicles, storerooms, shower rooms, slaughterhouses, foodstuffs plants and bakeries, air-inflated structures and awnings. Alkafix-4000 is particularly suitable for cleaning napped floors and fine stone tiles and is used where normal cleaning products are no longer effective.	
	Alkafix-4000 is suitable for all artificial and natural stones as well as for rust-resistant metals and all other alkaline-proof undergrounds.	
Chemical behavior:	Alkaline	
Dosage:	Pure to 1:20	
Treatment:	Apply the ready solution with a cloth or sponge. The most economical method is to spray with a manual or pressure spray device. Allow briefly to react and then rinse with water without rubbing. The ideal treatment temperature is between 20° C and 90° C.	
Consumption:	According to use and type of contamination	
Directions for use:	Heidt & Schwarzfeld Alkafix-4000 is not suitable for sensitive plastics and soap-washable paints and varnishes. Do not store Alkafix-4000 below 0° C.	
	Please absolutely heed the directions for treatment and safety in the EU safety data sheet.	
Specifications:	Shelf life:	min. 2 years
	pH value	13.5.
	Components	Tensides, potassium hydroxide, phosphates, butyldiglykol, butoxypropanol
Canister size:	20 liter canister	
	UN number:	1814
	UBA number:	12670079
	Article number:	10105
