

Product-Information

Metallic-WK-200

Cleaner and conserver for metallic, varnished and anodized facades

Features:	Metallic-WK-200 was especially developed for cleaning and conserving metallic facades. It possesses outstanding cleaning properties for a thorough and at the same time gentle cleaning of the surface. The high-grade waxes contained in Metallic-WK-200 preserve the metallic facade and protect it at the same time from harmful ambient influences. The luster of the varnish is enhanced with Metallic-WK-200.	
Dosage:	Pure	
Treatment:	Heidt & Schwarzfeld Ltd. Metallic-WK-200 is a ready to use solution and is applied and worked in with sponge or car brush. A white pad can be used in addition for stubborn contamination. Immediately reclean with a wet cloth, lambskin or hose water and dry with a chamois.	
Consumption:	ca. 15 – 20 m ² per liter	
Directions for use:	Do not apply Metallic-WK-200 in direct sunlight or on heated plates. Do not use under +10° C. Metallic-WK-200 is NOT suitable for chalky surfaces. Please absolutely heed the directions for treatment and safety in the EU safety data sheet.	
Specifications:	Shelf life:	min. 1 year in closed canister
	pH value	9
	Components	Wax emulsion and tensides
Canister size:	20 liter canister	
	UN number	-cancelled-
	UBA number:	12670079
	Article number:	10225
