

Product-Information

PHS swimming pool and tiles cleaner

Properties: For cleaning tiles, dutch-tiles areas, alloy steel and swimming-pools. For all sensitive but acid-resistant surfaces. PHS does not attack chromium-plating.

PHS removes easily:

- dust and dirt on tiles and other sensitive facade surfaces
- calcareous deposits in bath and sanitary areas
- cement and lime residues in new buildings
- strong rust deposits, as well as other metal oxidations.

If desired PHS can be supplied with antibacterial additives.

Chem. characteristics: acid but hydrochloric acid-free

Dosage : pure up to 1:15 diluted with water

Directions for use: PHS can be applied with a sponge, lambskin or a sprayer. Allow to take effect for about 5 – 10 minutes. The cleaning process can be accelerated by mechanical means. After the reaction time the loosened dirt is rinsed off thoroughly with water.

Application: according to the toughness of stain and dilution

Note: Do not use on marble, artificial stone and simple metals, as well as other acid-sensitive surfaces.

Please follow carefully the instructions and safety recommendations out of the safety EU regulations form.

Specifications:	Expiration	minimum of 2 years
	pH-value	~1
	Contents	amido sulfonic acid, tenside

Barrel size: 10 L/Barrel

UN-Number:	2967
UBA-Number:	12670057
Item-Number:	10609
