

Product-Information

Power-Clean Cleaning concentrate for heavy contamination

Features: Power Clean is a universally applicable cleaning concentrate for thoroughly cleaning heavily contaminated objects.

It is suitable for cleaning artificial and natural stones, all washable surfaces made of porcelain, stainless steel, rubber, awning, cement and clinker. Also suitable to clean factory halls, clinker floors, tiles, domelights, shutters, car covers, PVC floors, linoleum, stone floors, wash basins, range hoods, refrigerators, window frames, etc.

Chemical behavior: Alkaline

Dosage: Only use thinned (1:10 to 1:100)!!

Treatment: Apply the prepared solution with a cloth or sponge, allow briefly to react and remove the dirt with a moist cloth. Rinse with clear water and wipe dry if necessary.

Consumption: Depends on use and type of contamination

Directions for use: Heidt & Schwarzfeld Power Clean is not suitable for sensitive plastics and soap-washable paints and varnishes. Do not use in direct sunlight or on heated surfaces – do not allow to dry.

The product is free of hydrochloric acid, phosphoric acid, ethanoic acid and does not develop any injurious vapors.

Please absolutely heed the directions for treatment and safety in the EU safety data sheet.

Specifications:	Product shelf life:	min. 2 years in closed original canister
	pH value	13
	Components	Tensides, lye, complexing agent, phosphates, auxiliary agent

Canister size: 10 liter canister

UBA number:	12670082
Article number:	11020
