

Product-Information

Tile-Clean - acid - Cleaner containing no Hydrochloric Acid for Stoneware Tiles

Characteristics:	Tile-Clean is a weak acidic cleaner for all stoneware tiles for interior and exterior areas. Clears and removes heavy staining. Note: Removes all kinds of varnish and coating!
Chemical Action:	acidic solution, free of hydrochloric and hydrofluoric acid
Dosage:	1:5 for thorough cleaning Up to 1:20 diluted with water for maintenance cleaning
Application:	apply Heidt & Schwarzfeld Tile-Clean with spray machine, cleaning mop or mechanically on wet surface and leave to soak for 2-3 minutes. With heavy staining please use machine disc cleaner. <u>Do not leave the product to dry in completely.</u> Afterwards rinse thoroughly with water. There need not be any residue of the product on the surface. For later impregnation we recommend our product Impregnator WLN or SAC.
Usage:	depending on level of staining approximately 0,2 – 0,4 ltr/m ²
Notes:	Tile-Clean must not be used in direct sunlight and not with temperatures over 60° C. Glass surfaces and all surfaces not resistant to acidic solutions must be protected. Do not mix with other chemicals. New joints must be tested on sample spot. Do not let product dry. Please read the security and processing advice on the EG-safety sheets.
Technical Data:	shelf life minimum 1 year sealed, store frost-protected pH-value 3,5 ingredients ammonium bifluoride, complexing agent, tenside
Unit Size:	10 litre unit
Article No:	11018
