

Product-Information

Alu-Clean MR

GRM registered abrasive metal cleaner

Properties : For cleaning anodized and black finished aluminium as well as bronze and brass.

Alu-Clean MR removes strong oil, fat and pigment-dirt layers, also corrosion crater of metallic surfaces such as alloy steel and aluminium. The eloxal layer of aluminium is not affected by the use of Alu-Clean MR.

Dosage : pure

Directions for use: Distribute Heidt & Schwarzfeld Alu-Clean MR on the surface to be cleaned with a sponge or pad. Then, wash off thoroughly with water.

In order to preserve, we recommend afterwards our metal preservative MK-2010.

Important: Polish thoroughly with a dry absorbent cloth while the surface is still humid.

Application: ~30g/m² according to the toughness of stain

Note: Please follow carefully the user and safety instructions out of the EG-safety specifications.

Specifications: Expiration minimum of 1 year in closed container
pH-value n.b.
Contains solvent on citrusbase, Ethylenglycol-mono-n-butylether

Barrel size: 10 kg/Barrel
12x1 kg/Carton

UN-Number: 1993
UBA-Number: 12670077
GRM-Registernr. 105 h
Item-Number: 10629 – 10 kg/Barrel
10630 – 12x1 kg carton
