## Stonecleaner SG

Properties : Detergent for all acid mineral building material particularly suitable for varnished stones respectively tiles for outside and for baked earthenware.

Chem. condition : infirm acid reactive gel, free from hydrochloric acid and fluoride acid

Dosage . pure up to 1:10 diluted with water

Directions for use : apply Heidt & Schwarzfeld Stonecleaner SG only on previously wetted surfaces. Stonecleaner SG is to be used generally pure with Nylon brush or Nylon paint brush. Preferably work in upward movements onto areas not greater than 5 m<sup>2</sup> at a time. Keep below lying surfaces wet. Let it react for 3-15 min. Then, if possible use water to polish up with a high-pressure machine or a steamjetmachine until the water used for washing reaches pH-Neutral.

In order to impregnate we afterwards recommend you to use our Imprägnat 290s

Application : according to the toughness of stain

Note: Do not use Stonecleaner SG into direct sunlight. Protect iron, aluminium, zinc, steel, diverse types of plastic and glass.

Please follow carefully the instructions and safety recommendations out of the EU-safety regulation form.

Specifications : Expiration : minimum of 2 years

pH-valence : 3,3 up to 3,6

Contents : mineral acids, alcohol, biological degradable tenside,

drainage-safe (biological degradable according to DIN)

Container size : 20 L / container

Un-number : 2817

Un-number : 12670010

Item-number : 10007
